EDUCATION

AAB
Computer Science / Software
2016 - Present

Sami Frasheri
High School / Math & IT
2012 - 2015

Hasan Prishtina
Elementary School
2003 - 2012

SKILLS

- NodeJS | NestJS | Angular | Typescript | Vue | Ionic | Jest | Cypress | Playwright

- MySQL | PostgreSQL | Mongo | Redis

- Docker | RabbitMQ | SignalR

- PHP | Laravel | Wordpress

- .NET

WORK EXPERIENCE

Senior Software Engineer   2022 - Present
GenTwo | Prishtina

Responsible for crafting robust backend and frontend solutions utilizing a stack comprising C#, .NET, TypeScript, along with Vue.js, Nuxt, and Angular framework.

Crafting high-performing and testable APIs with X-Unit, and conducting comprehensive end-to-end testing through Cypress & Playwright for seamless integration and reliability assurance.

Fullstack Web Developer   2018 - 2022
Frakton | Prishtina

Developed e-commerce solutions and implemented internal payment APIs using WordPress

Worked as a PHP/Laravel developer, responsible for creating database infrastructure, API development, and implementing the MVC pattern.

Contributed to Angular development for a client in the medical healthcare industry. Developed backend features using NodeJS and MongoDB.

Built e-commerce apps for a Swiss client using NodeJS, PostgreSQL, and MongoDB. These apps serve clients like ski resorts and biking companies in Switzerland. We're organizing them as microservices, with RabbitMQ handling messaging.

Contributed to backend solutions and improvements for Playtika's gaming projects, utilizing Apache-Kafka, NodeJS, and PostgreSQL tech stack.

Freelance   2015 - 2018
Envato Market - Themeforest

Designed and developed themes for publication on the Envato market, ensuring they are ready for use.

Created comprehensive documentation for clients on theme usage.

Provided email support to assist clients in deploying and setting up themes correctly.
