DRILON CITAKU

Software Engineer

☎ +38348174505   @ driloncitaku@gmail.com   🔗 linkedin.com/in/drilon-citaku   📍 Prishtina, Kosovo

EXPERIENCE

Senior software engineer

Smzh AG

📅 08/2024   📍 Pristina, Kosovo

- Developing and optimizing scalable backend services using mainly .NET, NodeJS (TypeScript), and Python
- Managing cloud deployments, CI/CD pipelines, and Kubernetes clusters in Azure DevOps
- Cross-Developing frontend client portal app, using Angular + (Ionic Framework)
- Developing AI-driven micro-apps using Azure Document Intelligence and OpenAI
- Improved system performance, optimized database queries and caching strategies

Senior software engineer

GenTwo AG

📅 10/2022 - 08/2024   📍 Pristina, Kosovo

- Designed and developed high-performance APIs and microservices using .NET and NodeJS (TypeScript)
- Led the development of frontend applications with VueJS, Nuxt, and Angular
- Enhanced system reliability with Cypress & Playwright automation
- Integrated RabbitMQ for seamless event-driven communication in financial applications
- Developed multiple internal tools using Azure serverless functions

Senior software engineer

Limehome GmbH

📅 09/2022 - 10/2022   📍 Munich, Germany

- Developed backend services in Restful API on NodeJS(Typescript) and NestJS
- Developed and maintained frontend on Angular

Fullstack developer

Frakton

📅 07/2018 - 09/2022   📍 Pristina, Kosovo

- Developed e-commerce platforms and integrated payment APIs using WordPress
- Designed and implemented scalable backend and frontend solutions using PHP (Laravel MVC and Restful API), NodeJS (Typescript) and Angular
- Created database infrastructure and API endpoints for various projects
- Worked on different projects and industries like health, gaming, social media, fintech, etc

Web developer freelance

Envato Market

📅 01/2015 - 01/2018   📍 Pristina, Kosovo

- Designed and developed WordPress themes on Envato Market
- Provided client support and customization guidance, ensuring successful deployments

EDUCATION

B.Sc. in Computer Science

AAB College

📅 10/2016 - Present   📍 Pristina, Kosovo

SUMMARY

Software Developer experience in backend and frontend development, DevOps, and cloud solutions. Specializes in scalable architectures using .NET, NodeJS, and NestJS, with expertise in Angular, VueJS, and Next for dynamic UI. Skilled in containerization (Docker, Kubernetes). Enhancing CI/CD processes, and improving application reliability through automation and test-driven development. Passionate about delivering high-quality software solutions that drive business growth.
